Compliance Definitions

Complies: The item has been assessed as complying with the requirements of the relevant standards at the time of the inspection.

Non-Compliance: The item has been assessed as not complying with the requirements of the relevant standards. The reason/s for the item not complying are provided in the "Observations/Evidence/Notes" column of the report.

Serious Non-Compliance: Any non-complying item that has been assessed as posing an immediate or imminent risk to health or previous non complying items that have not been brought into compliance. Action will normally be required to be taken immediately or at most within seven (7) days or sooner to ensure any health risk is removed.

Not Reviewed/Assessed: The item has not been assessed for compliance during the inspection.

Not Applicable: The item is not applicable to the premises at the time of the inspection.

Assessment/Inspection Result and Rating

A non-compliance that is not considered serious (refer above) gets a penalty of 1. A Serious Non-Compliance (refer above) gets a penalty of 10. The penalties for all non-complying items are added together to give a Total Penalty Score (TPS). The TPS is the basis for the assessment/inspection result and rating as indicated below.

TPS	Result	Rating (if used)	Recommended Council action
0 - 1	Compliant	Excellent	Next annual inspection within 12 months. Additional inspections may be made at any time to check that compliance is being maintained.
2 - 5	Compliant	Good	
6 - 9	MajorNC (Major Non-Compliance)	Marginal	Re-inspection within 14 days
10 - 15	MajorNC (Major Non-Compliance)	Poor	Immediate action taken to remove risk. Re-inspection within 14 days.
16 or more	CriticalNC (Critical Non-Compliance)	Very Poor	Immediate action taken to remove risk. Re-inspection within 2 days.

Immediate action may include seizing articles, issuing an order or notice, issuing an infringement notice, initiating legal action or a combination of these.
